

# Parham Abolghasemi

## Front-End Developer

📍 Tehran, Iran [parhamab17@gmail.com](mailto:parhamab17@gmail.com) [LinkedIn](#) [Portfolio](#) [GitHub](#) [Stackoverflow](#)

### SUMMARY

Goal-oriented Front-End Developer with over 3 years of experience designing and delivering impactful web applications that enhance user experience. At Stinas, combined creativity, versatility and a commitment to excellence to develop and launch a flagship product, increasing user engagement and expanding the company's users. At Pourdastmalchi Consultant Center, I leveraged troubleshooting skills and a user-focused mindset to create a university major guidance platform, boosting company users by 5-10%. At Rayadars (Ministry of Education), demonstrated precision and flexibility by improving data presentation and optimizing user interfaces, elevating overall user experience. Recognized for integrity, dedication and the ability to thrive under tight deadlines, bringing multitasking efficiency and technical precision to every project.

### WORK EXPERIENCE

#### Stinas - Front-End developer

📅 2024.08.03 – present

📍 Tehran, Iran | on-site

- Played a key role in the development of a flagship product that was successfully launched, earning recognition as one of the company's main offerings and receiving positive user feedback.
- Develop reusable components, reduce development time for projects by 15-20% and streamline the process through efficient component reuse.
- Refactored critical project components to optimize application performance by reducing unnecessary re-renders and implemented React-Query for efficient data fetching and caching, achieving a smoother user experience with load times improved by 10-15%.

#### Rayadars (Ministry of education) - Full-Stack developer

📅 2023.07.17 – 2023.10.22

📍 Tehran, Iran | on-site

*3 months*

- Gained hands-on experience in backend development with Node.js, expanding technical knowledge and demonstrating adaptiveness and a strong willingness to learn new skills.
- Streamlined UI design process for complex data representation, resulting in a reduction of average page load times from 6 seconds to under 4 seconds for improved overall user experience.
- Refactored project folder structure to make it more modular, significantly reducing development time for the team by enabling more efficient collaboration and code management.

#### Pourdastmalchi - Front-End developer

📅 2021.03.01 to 2023.04.28

📍 Tehran, Iran | Hybrid

*2 years and 2 months*

- Developed a user-friendly university major selection application using Next.js, guiding students through personalized steps based on psychological tests and preferences, resulting in a 5-10% increase in user engagement for the company.
- Sole front-end developer in a collaborative work environment, responsible for designing and implementing UI components across multiple projects using a wide range of technologies, including HTML, CSS, Bootstrap, React, Tailwind and Next.js.
- Demonstrated strong motivation to learn new technologies, successfully managing both academic responsibilities and professional development as a student.

## SKILLS

- **HTML / CSS / JavaScript / TypeScript**
  - Designed and implemented responsive web applications using HTML, CSS and JavaScript / TypeScript.
- **Libraries and Frameworks (React JS (Hooks) / Next.js)**
  - Engineered Single Page Applications with React Router DOM, leveraging React.js for seamless navigation.
  - Crafted reusable, maintainable and efficient functional components using React Hooks, enhancing code quality and reducing redundancy.
  - Delivered high-performance, SEO-optimized applications by developing with Next.js.
- **State Management (Context API / Redux / Redux Toolkit / Zustand / React-Query)**
  - Architected complex application logic using state managements to ensure maintainability.
  - Boosted development efficiency and application performance using RTK Query and React-Query for optimized data fetching, caching, revalidation and error handling, enabling real-time updates and delivering seamless user experience.
- **Styling and UI Frameworks (SASS / MUI / Tailwind / Bootstrap / Styled-Components / DaisyUI / NextUI)**
  - Designed and optimized responsive, cross-device user interfaces using diverse CSS frameworks and libraries.
- **API Integration (RESTful API / GraphQL)**
  - Integrated with RESTful APIs and GraphQL endpoints to enable seamless client-server communication.
  - Executed CRUD operations and implemented robust error-handling mechanisms for enhanced client-side functionality.
- **Tools and Utilities (Postman / Swagger / NPM / Yarn / SQL / Git)**
  - Utilized Postman and Swagger for API testing and documentation.
  - Managed dependencies and build processes with NPM and Yarn.
  - Applied Git for version control, ensuring smooth collaboration and codebase management.
