SUMMARY

Front-End Developer with 4+ years of experience with a bachelor's degree in Software Engineering, focused on building high-performance web applications. Proficient in JavaScript, React, and Next.js, with a strong track record of creating scalable components and user-friendly interfaces. Experienced in debugging, mentoring, and optimizing performance to deliver superior user experiences and maintain high-quality, maintainable code.

SKILLS

- **Front-End Development:** HTML, CSS, JavaScript, TypeScript, React.js (Hooks), Next JS
- **State Management:** Context API, Redux, Redux-Toolkit, Zustand, React Query
- **Styling:** TailwindCSS, MUI, Bootstrap, Styled-Components, SASS, DaisyUI, HeroUI
- **API:** RESTful API, GraphQL, SQL
- **Tools:** Git, Yup, Formik, React-Hook-Form, Npm, Yarn, Postman, Swagger, Figma
- **Soft Skills:** Precision and Quality Focus, Mentoring, Team Collaboration, Time Prioritization, Problem Analysis

WORK EXPERIENCE

Stinas

Front-End Developer   Feb 2024 – Aug 2025

- Developed a platform with 18+ AI modules (e.g., face and plate recognition), released as a main company product.
- Launched a subscription pricing landing page, lowering support inquiries by 11%.
- Memoized key parts of the application, prevented unnecessary re-renders and accelerated page speed by 10–15%.
- Built 10+ reusable components, shortening development time by a third, and contributing to 4 projects in a year.
- Minimized Cumulative Layout Shift by 17% through layout refinements, resulting in a more stable visual experience.
- Streamlined image handling using lazy loading, boosting load speed without Back-End changes.
- Monitored and optimized API requests weekly, eliminating 8% of redundant calls and improving response times by 5%.

Rayadars

Front-End Developer   May 2023 – Feb 2024

- Optimized application performance, reducing page rendering from 6 to under 4 seconds, leading to a smoother experience.
- Enhanced data visualization, increasing user engagement by 9% and elevating readability scores based on users' feedback.
- Restructured project folder, shortening development cycles and enabling new developers to onboard within 5 days.
- Mentored 4 junior developers, fostering skill development and productivity through daily knowledge-sharing initiatives.
- Validated client inputs with React-Hook-Form, preventing invalid submissions and easing DB load by 12%.
- Created flexible responsive layouts, enhancing user experience and engagement on every device.

Pourdastmalchi

Front-End Developer   Mar 2021 – Apr 2023

- Rewrote a university major selection platform using Next JS, resulting in a 5–10% growth in customer acquisition.
- Led UI design and Front-End Development across 13+ projects, optimizing usability and design consistency.
- Crafted 60+ reusable components using React and Next.js, enhancing modularity and maintainability.
- Replaced heavy libraries with custom lightweight alternatives and boosted Core Web Vitals scores by 12%.
- Implemented code splitting, trimming bundle size and maximizing first load performance by at least 2 seconds.
- Minified static assets including fonts and images, resulted in a 3-second reduction in rendering time.

EDUCATION

Bachelor of Software Engineering   Sep 2020 – Nov 2024
Science and Research Branch of Azad University

CERTIFICATES

- **Front-End Developer**, HackerRank   Aug 2025
- **CSS**, HackerRank   Aug 2025
- **React**, HackerRank   Mar 2025
- **JavaScript**, HackerRank   Mar 2025
